2. Method of Preparation of Academic Calendar

Method of Preparation of Academic Calendar

The academic calendar has been established and fixed in order to conduct exams and other associated activities. The institution plans its academic calendar and makes every effort to follow it. The administration of internal exams and other cocurricular and extracurricular activities follows the schedule set forth in the academic calendar. On June 15th, the college reopened, and first-year admissions began. During the summer break, the colleges prospects were prepared and imprinted. Committees for the various courses and extracurricular activities are formed. The National Service Scheme enrollment process began as admissions were about to end. Celebrations of Gandhis birth anniversary and Independence Day are held. The college holds internal exams throughout the first and second weeks of October. August and September are when the other extracurricular and curricular events take place.

Exams for the semester begin in the final week of October. The university sets the schedule for the semester exams and the practical exams, and the connected institutions must adhere to it. Up until the first week of December, there are still exams at the universities. The final week of November is when the second semester begins. On January 12, we celebrate National Youth Day and the birth anniversary of Swami Vivekananda. Our national service camp is organized in the last week of December, and preparations for the camps organization begin in the second week of December. We begin rehearsing and practicing in December. The second week of January marks the beginning of preparations for the annual social gathering and award ceremony, which takes place following the celebration of Republic Day. The initial and second weeks of January are when the internal exams are held. On February 28th, National Science Day is observed. The university creates the timetable for the exams and handles the scoring of the answer sheets. The final week of March marks the beginning of external exams, which last through the first week of May.
